- In the quiet town of Newberry Springs, the Gibson brothers each face unexpected turns in life and love—proving that sometimes the best path forward often means learning to follow their heart.

Centered around a cast of interconnected characters, the Newberry Springs series delivers the perfect blend of heart, heat, and hometown charm. Perfect for fans of Elsie Silver's emotional depth and small-town feels, Stephanie Archer's spicy rom-coms, and razor-sharp banter, Paisley Hope's rugged ranch vibes and irresistible cowboys, and Laura Pavlov's sweet-and-sexy storytelling that will leave you laughing one minute and teary-eyed the next.

"It only looks easy when you love the right person, but choosing to love someone every day requires work."

In the tight-knit town of Newberry Springs, Texas, Kelsea has loved her best friend, Wyatt, since they were kids—but they never crossed the line until one kiss the night before he leaves for college. Eight years later, they're back in each other's lives, working side by side, and pretending nothing ever happened. Kelsea hides her feelings and clings to the safety of their friendship—until Wyatt's twin brother makes an impulsive move that sets off a chain of events threatening to upend everything: friendships, family ties, and a love that's never had the chance to grow.

With lifelong bonds tested and her future on the line, Kelsea must decide if risking everything—including the only real family she's ever known—is worth the chance at something more.
